2D ENGRAVING

Artfully shaped into geometric patterns, stone becomes as versatile as a piece of paper.

Natural stone are carved mechanically with precision and grace to create exquisite murals. Murals can be created on a single stone or over the combination of stone, with designer artwork.

2D engraving on the stones using CNC machine which is set upto a specific depth. Wall murals grant the wall decoration a lavish, imperial personality, while bringing out the ingrained texture of the decorative natural stone

3D ENGRAVING

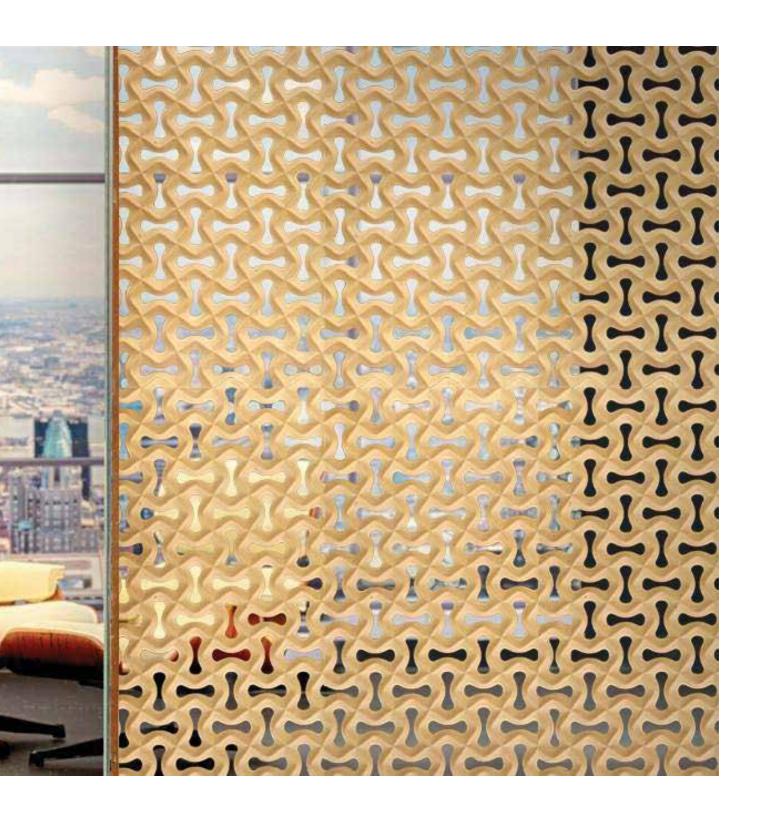

Sculpted with flair, natural stone takes on elegant new dimensions.

3D engraving, The engraving machine has complete control of all three axes of travel (X, Y, and Z) as required to achieve the desired effect. The software generates the necessary tool path to completely rout or cut-out the design at a much higher accuracy and level of detail, particularly when the engraving is required to be deep into the material.

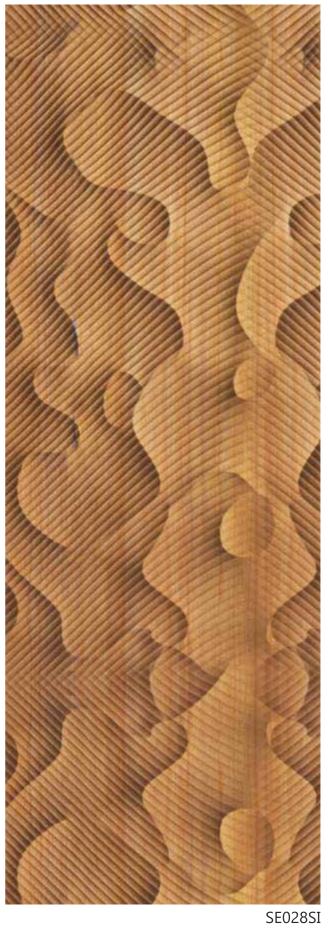

Inspired by the age-old art andabstract patterns, All type of natural stone likewise marble, granite sandstone and limestone etc. surfaces are engraved into stunning shapes to bring a fresh perspective to any interior.

MURAL MOSAIC

Mural mosaics, with their multitude of colors, patterns and textures and carved stone pieces, introduce an extravagant splash of life into interior and exterior spaces.

Create a rustic bathroom with mural mosaic of subtle, softly coloured natural stone squares, or grant your hallway a royal elegance with rough arched mosaic wall tiles with a seamless, interlocking pattern. Mural mosaic tiles can also bring a timeless grace into your kitchen backsplashes, and elevate your living room walls with life and warmth. Resilient and durable, natural stone mural mosaics are ideal for both interior designing and exterior applications.

STONE MOSAIC

Stone Mosaics are put together using smaller stone in an orderly or random fashion. They can be created using small pieces of similar shape and color, or by using chips that vary vastly in cut, color and design. Arranged in spiral, planar or randomly mixed patterns, stone mosaic wall tiles have timelessly been used for ornamentation of imperial and artistic spaces. The application of stone mosaic tiles can range from living room accent walls to office galleries, from kitchen backsplashes to bathroom walls and beyond. Each designer wall application of stone mosaic is unique in style and creates a characteristic splash of royalty mixed with a transcending harmony on the surroundings

STONE VENEER

Do you often find yourself wishing that you could use the natural stone texture to ornate your narrow interior walls, interior partitions or even apply atop your furniture to give it a royal touch? Stone tiles are sometimes too heavy for the delicate surfaces to hold, and only finds practical application on sturdy interior and exterior walls and floors. Thin stone veneer sheets by Stone Ideas are the perfect solutions for such applications. Sliced out of slate and quartzite natural stones into very thin and flexible stone veneer sheets, stone veneer sheets preserve the original texture, durability and resilience of the natural stones, while abandoning the weight and bulk of the stone. Natural stone veneer panels can be opaque or translucent, making them ideal for backlighting and decorative applications on sliding, partitions, furniture and cabinet fronts. With light weight and the ability to be cut into desirable sizes and shapes, natural stone veneer tiles can be used elaborately to resonate with your artistic expressions!

STONE ARTIFACTS

The delicately veined textures, intricate patterns, ribbons of alluring colors dispersing through the smooth surfaces of natural stones make them extremely desirable for design of decorative articles. Every statue, fountain, basin and other article fashioned using natural stones has a unique characteristic and individuality. Want to give your garden a distinctive look? Adorn it with a natural stone fountain with neutral colors to state a timeless artistic declaration. Select one of the elegant natural stone basins with trendy stone design for turning your bathroom into an imperial sanctuary. At Stone Ideas, we create custom designed decorative stone articles and handicrafts to harmonize with your interior and exterior spaces that present a verdict of life and celebration to your surroundings!
